Bee Life Cycle Worksheet

Name: _____ Date: _____

1. Put the stages in order

Write 1, 2, 3... in the boxes to show the order of the bee life cycle.

☐	**Larva** – White larvae hatch and are fed by worker bees.
☐	**Adult** – The adult chews out and becomes a worker, drone or queen.
☐	**Egg** – The queen bee lays one egg in each wax cell.
☐	**Pupa** – Workers seal the cell and the larva changes inside.

2. Match the word to its meaning

Write the letter next to each word.

1. colony	A. moving pollen so a flower can make seeds
2. nectar	B. a big group of animals living together
3. pollination	C. sweet liquid inside flowers that insects drink

3. Draw and label

Draw your favourite stage of the bee life cycle and label it.

4. Explain

What happens between the first and last stage?

.....

Answer key

Correct order

Egg → Larva → Pupa → Adult

Word match

1–B, 2–C, 3–A

Try this activity

Make a honeycomb from paper hexagons and show the stages in different cells. Plant bee-friendly flowers in a school bed. Watch bees from a distance and do not touch them.
