Bat Life Cycle Worksheet

Name: _____ Date: _____

1. Put the stages in order

Write 1, 2, 3... in the boxes to show the order of the bat life cycle.

☐ **Newborn** – A baby bat, called a pup, is born and clings to its mother.

☐ **Adult** – The adult bat finds food at night and can have its own pup.

☐ **Juvenile** – The young bat drinks milk, then learns to fly and hunt.

2. Match the word to its meaning

Write the letter next to each word.

1. mammal	A. finding things by listening to echoes of sounds
2. echolocation	B. the babies or young of a living thing
3. offspring	C. warm-blooded animal that feeds its babies milk

3. Draw and label

Draw your favourite stage of the bat life cycle and label it.

4. Explain

What happens between the first and last stage?

.....

Answer key

Correct order

Newborn → Juvenile → Adult

Word match

1–C, 2–A, 3–B

Try this activity

Play an echolocation game: one blindfolded child is the bat and calls 'bat', classmates acting as moths answer 'moth'. The bat uses sounds to find them, showing how bats hunt in the dark. Do not handle real bats.
