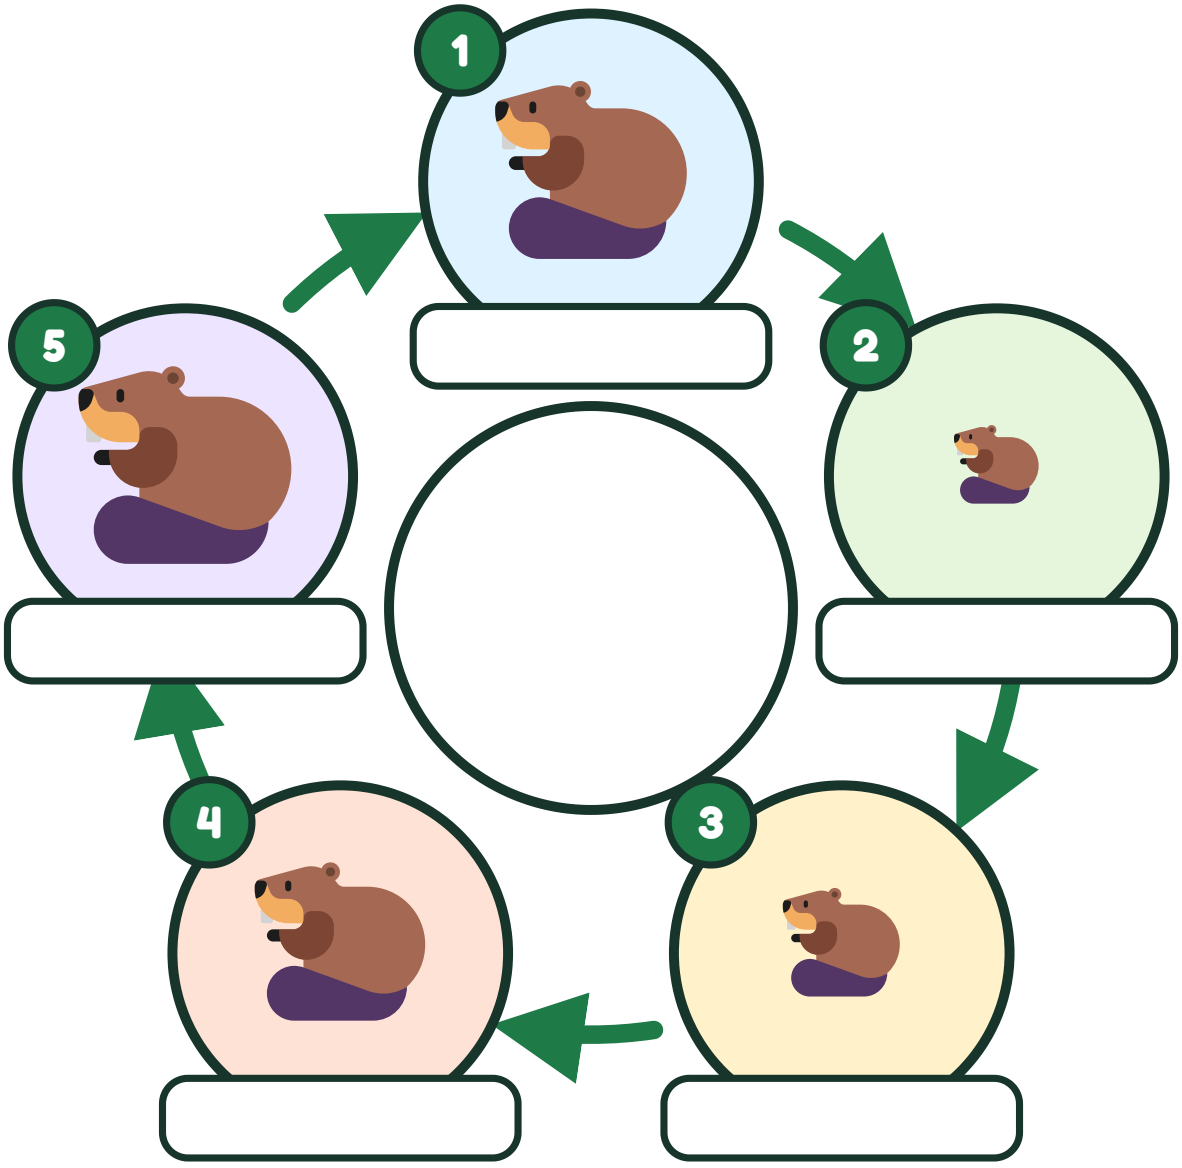
Label the Beaver Life Cycle

Write the name of each stage in the empty boxes.

Name: _____ Date: _____



Word bank

Adult • Kit • Newborn kit • Pregnancy • Yearling

Which stage comes right after **Pregnancy**? _____

Cut and Sequence

Cut out the cards and put the beaver life cycle in order. ✂

Name: _____ Date: _____

Newborn kit
Born furry with eyes open, about 1 lb.

Yearling
Stays home and helps raise the new kits.

Kit
Nurses for weeks and learns to swim and gnaw.

Adult
Leaves at about 2 to find a mate and pond.

Pregnancy
About 3½ months; kits born in spring.

Match the word to its meaning

1. kit ____	A. a beaver's dome-shaped home made of sticks and mud
2. lodge ____	B. a wall of sticks and mud that blocks a stream to make a pond
3. dam ____	C. a baby beaver
4. colony ____	D. a beaver family that lives together

Glue your cards in order on another sheet and draw arrows between them.
