Frog Life Cycle Worksheet

Name: _____ Date: _____

1. Put the stages in order

Write 1, 2, 3... in the boxes to show the order of the frog life cycle.

	Tadpole – Tadpoles hatch, swim with tails and breathe through gills.
	Adult – The adult frog lives on land and in water, and lays eggs.
	Egg – Frogs lay clumps of jelly-covered eggs called frogspawn in ponds.
	Froglet – Legs grow, the tail shrinks and lungs develop.

2. Match the word to its meaning

Write the letter next to each word.

1. amphibian	A. a big change in body shape as an animal grows
2. tadpole	B. a young frog or toad that lives in water
3. metamorphosis	C. animal that lives in water, then on land

3. Draw and label

Draw your favourite stage of the frog life cycle and label it.

4. Explain

What happens between the first and last stage?

Answer key

Correct order

Egg → Tadpole → Froglet → Adult

Word match

1–C, 2–B, 3–A

Try this activity

Draw the frog life cycle on a paper plate divided into four sections. Add a spinner arrow and take turns explaining each stage. Visit a pond in spring to see frogspawn without collecting it.
