Owl Life Cycle Worksheet

Name: _____ Date: _____

1. Put the stages in order

Write 1, 2, 3... in the boxes to show the order of the owl life cycle.

☐	**Adult** – The adult owl hunts on its own and raises owlets.
☐	**Fledgling** – The young owl grows flight feathers and leaves the nest.
☐	**Egg** – A mother owl lays round white eggs and sits on them to keep warm.
☐	**Owlet** – Fluffy owlets hatch and are fed by both parents.

2. Match the word to its meaning

Write the letter next to each word.

1. incubate	A. to keep eggs warm until they hatch
2. hatch	B. a baby owl
3. owlet	C. to break out of an egg

3. Draw and label

Draw your favourite stage of the owl life cycle and label it.

4. Explain

What happens between the first and last stage?

Answer key

Correct order

Egg → Owlet → Fledgling → Adult

Word match

1–A, 2–C, 3–B

Try this activity

Look at photos or diagrams of owl pellets, or dissect sterilised pellets bought for schools while wearing gloves. Sort the tiny bones to find out what owls eat. Wash hands well afterward.
