Snail Life Cycle Worksheet

Name: _____ Date: _____

1. Put the stages in order

Write 1, 2, 3... in the boxes to show the order of the snail life cycle.

☐	**Egg** – Snails lay clusters of small round eggs in damp soil.
☐	**Hatchling** – Baby snails hatch with soft, see-through shells.
☐	**Juvenile** – The snail eats and its shell grows bigger in a spiral.
☐	**Adult** – Adult snails can mate and lay their own eggs.

2. Match the word to its meaning

Write the letter next to each word.

1. hatch	A. a shape that winds around and around
2. mollusc	B. to break out of an egg
3. spiral	C. soft-bodied animal, often with a shell

3. Draw and label

Draw your favourite stage of the snail life cycle and label it.

4. Explain

What happens between the first and last stage?

.....

Answer key

Correct order

Egg → Hatchling → Juvenile → Adult

Word match

1–B, 2–C, 3–A

Try this activity

Observe garden snails in a ventilated tank with damp soil and lettuce for a few days, then return them. Measure their shells and draw the spiral. Always wash hands after touching snails.
