Squirrel Life Cycle Worksheet

Name: _____ Date: _____

1. Put the stages in order

Write 1, 2, 3... in the boxes to show the order of the squirrel life cycle.

☐	**Adult** – Adult squirrels bury nuts and can raise their own kits.
☐	**Juvenile** – Young squirrels leave the nest, climb and gather food.
☐	**Newborn** – Baby squirrels, called kits, are born blind and hairless in a nest.

2. Match the word to its meaning

Write the letter next to each word.

1. mammal	A. the babies or young of a living thing
2. drey	B. warm-blooded animal that feeds its babies milk
3. offspring	C. a squirrel's nest made of twigs and leaves

3. Draw and label

Draw your favourite stage of the squirrel life cycle and label it.

4. Explain

What happens between the first and last stage?

Answer key

Correct order

Newborn → Juvenile → Adult

Word match

1–B, 2–C, 3–A

Try this activity

Hide nuts or acorns around the playground, then try to find them a day later. Discuss how forgotten nuts can grow into trees, helping forests spread. Do not feed or touch wild squirrels.
